

Cookie Policy

Updated: 2025-09-25

This Cookie Policy explains how **danyvin** uses cookies and similar technologies on **danyvin.com**. It works together with our **Privacy Policy**.

1) What are cookies?

Cookies are small text files placed on your device by websites you visit. They can be **session** (deleted when you close the browser) or **persistent** (kept until they expire or you delete them). We may also use `localStorage` for certain preferences.

2) Your choices & consent

- You control cookies via our banner: **Accept all**, **Reject non-essential**, or **Customise**.
 - You can withdraw or change your choices anytime via the **Cookie settings** link in the site footer.
 - If your browser sends a **Global Privacy Control (GPC)** signal, we treat it as an opt-out of non-essential cookies/tags where applicable by law.
 - You can also manage cookies in your browser (see section 6 below).
-

3) Categories we use

- **Strictly necessary** — required for the site to function (authentication/session, security, basic preferences). These do not require consent.
- **Functional** — enhance features (e.g., remembering UI choices).
- **Analytics** — help us understand usage and improve the site.
- **Marketing** — used for advertising/retargeting.

Current status (as of the date above): we use **only strictly necessary** cookies and consent-preference storage. **We do not set analytics or marketing cookies.**

4) What we set today (indicative)

Name / Provider	Category	Purpose	Duration
Session cookie (danyvin.com)	Strictly necessary	Maintains your logged-in session and security	Session
Consent preference (danyvin.com)	Functional	Saves your cookie choices so we can respect them	6–12 months

Name / Provider	Category	Purpose	Duration
Cloudflare security cookies (Cloudflare; e.g., <code>__cf_bm</code> , <code>cf_clearance</code>)	Strictly necessary	Traffic protection, bot management, rate limiting	Varies (e.g., 30 min – 1 year)

Notes: Names and durations may change as we update our infrastructure. Any non-essential categories will be **off by default** and require your consent.

5) Third parties

Where third-party cookies are used (e.g., Cloudflare), their processing is governed by their terms and privacy notices. We minimise third-party tracking and do not use cross-site marketing tags.

6) Managing cookies in your browser

You can delete or block cookies via your browser settings. Helpful pages: **Chrome** (Settings → Privacy and security → Cookies and other site data), **Safari** (Preferences → Privacy), **Firefox** (Settings → Privacy & Security → Cookies and Site Data), **Edge** (Settings → Cookies and site permissions). Blocking necessary cookies may break the site.

7) Changes to this Policy

We may update this Policy from time to time. We will post the new version here with an updated date. Material changes may be announced in the cookie banner.

8) Contact
